

# Outreach Projects

The University of Balamand Faculty of Medicine and Medical Sciences (FOM) delivers outreach projects by offering health services for the local community as evidenced by the following:

1. The Free Medical Campaign (FMC) held on March 19 and 20, 2022 at Sin El Fil municipality during which medical students volunteered to serve the underprivileged members of the community and FOM financed lab testing and medication distribution.

2. Collaboration with NGOs, such as the GNK Foundation, to target children health in schools. As such, a series of “Student Health Day” was held with the participation of FOM medical students and physicians from the University of Balamand affiliated hospital.

3. Annual participation of medical students to the “Mobile Clinic” touring different Lebanese regions in the aim of providing healthcare to rural communities. The “Mobile Clinic” project took place in August 2022 and June 2023

4. In the course CCIM 603, Clinical Clerkship in Internal Medicine, MEDICINE III students must undergo one month of Community Medicine at Howard Keragheusian Community Health Center located in Bourj Hammoud, one of the most underprivileged areas in Beirut. This primary care center serves primarily a population of migrants and refugees and cares for around 70,000 patients/year in most medical specialties.
